

FLORIDA SOUTHERN COLLEGE

MASTER OF ACCOUNTANCY

Florida Southern College's Master of Accountancy (MAcc) program prepares students for the Certified Public Accounting examination and an exciting career in accounting.

Program Overview

This program offers a comprehensive curriculum designed to equip students with advanced knowledge in auditing, financial, managerial, research, and taxation. Through rigorous coursework and practical experience, students develop critical thinking skills and professional competencies essential for success in accounting careers. The program emphasizes ethical decision-making and prepares graduates for leadership roles in both public accounting firms and corporate environments.

Convenient Schedule

Scheduling is flexible and efficient for the working professional. Courses are offered in 14-week semesters during the fall and spring, and in 12-week semesters during the summer. Classes meet on campus every other week. The alternate every other week class sessions will be completed remotely, with synchronous and asynchronous delivery formats that facilitate engaged and experiential learning. This is ideal for completing a complex professional degree, and for working professionals who benefit from a synchronous and engaged learning environment. For optimal flexibility, select elective courses are offered fully online.

Accelerated Program

The MAcc program at Florida Southern allows you to complete your degree at a pace that fits your lifestyle, with graduation in as little as 16 months.

Professional Certification Prep

The MAcc program provides everything you need to sit for the Uniform CPA Examination in Florida and most other states. Additionally, a CPA Exam Review Course can be taken as a part of the elective courses in the MAcc program.

Small Classes

Dedicated faculty and small class size gives you one-on-one attention and allows you to learn in small group settings.

Academic Advisor

The moment you enroll, the MAcc Director will be assigned as your Academic Advisor to see you through your experience from start to finish. Your advisor will help you develop an educational plan that matches your schedule and priorities.
